Bringing microCHP to market

Wednesday 7th July 2004
CBI Conference Centre, London

Bringing microCHP to market

Wednesday 7th July 2004

CBI Conference Centre, London

For	Representatives of all companies with an interest in contributing to or benefiting from the early introduction and rapid take-up of microCHP.
Aims	To raise awareness of microCHP among potential manufacturers, service providers, customers and influencers. To identify significant issues regarding the implementation of microCHP and the actions required to address them.
Format	Short, stimulating presentations from a wide range of key players, with ample opportunity for questions during both the sessions and the breaks.
Cost	£125.00 + VAT

Supported by

Keynote address by
Richard Ottaway MP

Shadow Secretary of
State for the
Environment

The SBGI/CHPA Domestic CHP Seminar held on 9 July 2003 at the CBI Conference Centre, London attracted over 100 delegates. The presentations stimulated lively debate and the event provided an excellent networking opportunity.

Comments from Delegates

"An excellent summary of the latest thinking from several key viewpoints - manufacturers, policy makers and marketers." Hugh Jones, Imperial College of Science and Technology, London

"An informative and interesting seminar which raised many questions and provided sensible and relevant answers." Alex Preston, Worldwide Independent Power

"The opportunity to hear first hand from employers and manufacturers, on the current state of the DCHP developments. The extensive list of attendees was a good networking opportunity." John Hazlehurst, Energy & Utility Sector Skills Council

"An informative overview of recent policy, market and technology developments." Dr Kevin Lane, Environmental Change Institute, University of Oxford

"The conference was an invaluable update on the state of the industry, and a unique opportunity to meet those developing this very exciting new technology." Andreas Biermann, Energy Saving Trust
